

# WHITE SOUND MACHINE

A new approach to noise masking.

# WHITE SOUND MACHINE

SOUND9SCAPE is a brand born from the cooperation of Tecnologie Elettroniche Avanzate and a group of independent Audio Researchers.

Tecnologie Elettroniche Avanzate is an Italy-based electronic manufacturer, specialized in Communication Devices Manufacturing, Sales and Integration.

With more than 30 years of experience with important installations, such as Milano Malpensa Airport, and San Siro Stadium, T.E.A. design joins robustness and audio quality, serving also as OEM electronic manufacturer for important brands in Professional and Commercial Audio.

The new brand philosophy is to design original products that provide solutions to very specific problems, at the best, with state-of-the-art audio processing and audiophile tuning.

## The **White Sound Machine (WSM)** is:

- a powerful tool for masking annoying noises
- a High Fidelity Audio Reproduction system, letting you enjoy Audio from external devices such as iPod, iPad, smartphones, or USB cards.
- a design object for decorate your living environment

### **Protect yourself from disturbances**

The White Sound Machine (WSM) is a loudspeaker with embedded sonic compositions (soundscapes) aiming to mask disturbing noises. Each soundscape has been studied in order to eliminate low frequency impulsive noises such as club sound, but is also suitable for other low frequency noises such as traffic noise, engine noise, footsteps noise (such as in apartments) and other noises (snoring, etc.). It can also be useful in case of tinnitus.

Four soundscapes are shipped together with the WSM, and can be integrated with new ones on request.

### **Enjoy music**

Whether your music is stored on USB, or on a portable music device

equipped with an headphones output, you can fully enjoy it with WSM.

The full range speaker used in WSM, together with a double reflex and accurate electroacoustic design, allows for a natural enhancement of low frequencies; an analog equalizer provides an extreme control of the sound experience.

### **Decorate your room**

The minimalist and elegant design of WSM lets use it as a first class furnishing object.

#### **APPLICATIONS**

- Hotels
- Private houses
- Shops
- Offices
- ...
